

Area 05 Education / PR project "Zonta University 05 D30"

What did the Area project involve?

Webinars and training sessions and a Google Drive platform, where we uploaded all 4 sessions - President's handbook, YWPA award, Healthy during a pandemic and Leadership training, and an E-book "I, the professional", containing information about all Area 05 members, in order to use the full potential of the experts.

Why was the project chosen?

This project was chosen because it works for one of the most important Zonta goals - retaining the number of members and upgrading their education, so that they are motivated ambassadors in attracting more and more new members.

Who benefited from the project?

Beneficiaries of this project are all Zonta members in Area 05, as well as like-minded people who are looking for knowledge in order to join our organization. This project gives wide publicity to the activity and importance of Zonta among the society.

What results were achieved?

Our sessions reached many members and supporters. For those who failed to participate, we created Zonta Library with records of all meetings in Google Drive platform, where presentations at District and Area level are also available. At "Zonta University A05, D30" we have created an e-book, containing information about all club members, grouped by their professions, which we constantly update, so that we can use the full potential of our professionals and their knowledge and skills. Using training records, both current and new members can upgrade their knowledge. The records of lectures give club presidents the opportunity of organizing meetings on a local level in order to attract new members.

How did the project fulfil the Zonta mission?

"Zonta University A05, D30" project is dedicated to one of the most important missions and follows all guidelines for improving club environment through knowledge of organizing and working on topics that excite members, supporters and the general public.

AREA 03 Education project “100 donne per la storia”

What did the Area project involve?

Advocacy and education: in the centennial of Zonta International Zonta clubs of area 03 hosted in their towns a photo exhibition showing 100 women who marked the previous Century. The women were chosen to explain the impact of each of them in every field of society. At the end, each club will choose the portraits they want to keep and for each of them make a donation to Zonta Foundation service against early marriage.

Why was the project chosen?

History is marked more and more by women and everybody has to know it.

Who benefited from the project?

The exhibitions took place in different cities; in hospitals, townhalls, schools, libraries, fairs, shop windows.

What results were achieved?

People of all kinds could realize how important women can be in our society.

How did the project fulfil the Zonta mission?

Zonta centennial was celebrated, and the importance of women was shown.
